SUMMARY

Frontend Developer with 3 years of hands-on experience designing and building responsive, scalable web applications using Angular, JavaScript, TypeScript, SCSS, and Bootstrap. Adept at developing reusable components, improving application performance, and translating UI/UX designs into clean, maintainable code.

SKILLS

Languages:

HTML5, CSS3, JavaScript, Typescript, SCSS

Developer Tools

VS Code, Gitlab, Jira

Library/Frameworks

Angular, Bootstrap, Tailwind, Rxjs, PrimeNG, Ag-Grid

PROFESSIONAL EXPERIENCE

Software Developer

12/2022 – present | Mumbai, India

ARCON Tech Solutions

• Project: Converged Identity (Identity Hub)

- Built an Angular app with RBAC to manage asset access, increasing workflow efficiency by 40%.
- Engineered a secure, real-time authentication system (Angular 15), enabling login, password reset, and account unlock with live credential validation, enhancing security and reducing support tickets by 30%.
- Integrated JWT-based authentication using interceptors and browser cookies, enabling auto session expiration, refresh token mechanisms, and real-time access control using RxJS.
- Designed reusable UI (modals, navbars, dialogs) using ng-Bootstrap, boosting dev speed by 25%.
- Enhanced performance with AG Grid and hybrid pagination, improving data loads by 35%.

Project: Converged Identity (Workspace)

- Published a Dynamic Form Builder Library (Angular) reducing 1,000+ LOC and improving speed by 20%.
- Implemented modular architecture and lazy-loaded routes to improve maintainability and reduce initial load time by 15%.
- Integrated SAML SSO and OIDC for enterprise login, improving login success by 25%.

Project: RPA Tool – Browser Automation

- Created a Chrome extension + Angular frontend to capture user actions like clicks, inputs, dropdowns, and captchas using Chrome APIs and browser messaging, converting them into reusable automation steps.
- Architected a no-code automation platform with drag-and-drop task creation using Angular's dynamic components, allowing users to build workflows visually, reducing manual task time by 50%.
- Maintained and enhanced Angular web applications by resolving bugs, addressing client feedback, fixing compiler warnings, and delivering new features—improving development speed by 25%.

Associate Software Engineer

06/2022 – 12/2022 | Mumbai, India

Amdocs

- Developed a real-time system health monitoring tool in Python and Linux, detecting critical failures and automatically escalating issues to on-duty shift engineers, reducing manual intervention by 60%.
- Automated several business workflows and infrastructure tasks using Bash and Python scripts, enhancing operational efficiency by 40%.

PROJECTS

Invoice & Vendor Management System [🔗](#)

- Delivered a full-featured system using Angular and PDFMake for managing vendors and generating custom invoices.
- Built a invoice module that auto-calculates totals and exports invoices as PDFs with custom branding, reducing manual effort by 50%.

Organic Farm Website [🔗](#)

- Designed a fully responsive multi-page website using HTML, CSS, Bootstrap, JavaScript for a local organic farm.
- Implemented a product showcase grid, an interactive project section, and a contact page to enhance user engagement and accessibility.

Home Decore Website [🔗](#)

- Built a responsive e-commerce-style website using Angular, SCSS (7-1 architecture), and Bootstrap.
- Integrated a reusable component structure, including product grids, modals, and navigation, ensuring high maintainability and scalability.

EDUCATION

Bachelor of Engineering (BE) In Electronics and Telecommunication

06/2019 – 06/2022 | Mumbai, India

Dwarkanadas J Sanghvi College of Engineering
CGPA 9.4

Diploma in Industrial Electronics

06/2015 – 05/2019 | Mumbai, India

Shri Bhagubhai Mafatlal Polytechnic
92.3%

CERTIFICATES

Angular - The Complete Guide [🔗](#)

- Journey of Zero to Hero Angular Framework.

Python Fundamentals [🔗](#)

- Learn Python with DSA from Scratch.

AWARDS

Award for Product Development Acceleration

Arcon TechSolution

- Received an award for accelerating product development and optimizing a project by 30%
