Experience

Senior Software Developer
Analytics Fox Softwares
(Aurion pro Solutions Ltd).

Nov/2024 – Feb/2025
Mumbai, India

Cash Management System (STC Bank) – Approval History & Filter Sidebar

Developed the Approval History Timeline and Filter Sidebar Component for a multibank Cash Management System using React.

- Built dynamic and interactive UI components for approval tracking, filtering, and real-time status updates.
- Lifecycle methods to ensure smooth user interactions and responsive performance.
- Integrated with RESTful APIs to fetch and display approval data efficiently.
- Designed scalable and reusable components with a focus on modularity and maintainability.

Software Developer
Wurth IT Pvt Ltd.

Nov/2021 – Sep/2024
Pune, India

- Utilize First spirit CMS to design and develop custom web pages for German clients, adhering to their specific syntax and rules. Create dynamic content using HTML, CSS, and JavaScript. Reviewed/Analyzed the varieties of insurance template documents.
- Implemented the application using the AGM (Angular Google Maps) library, enabling interactive map features such as displaying detailed workshop information on marker clicks and identifying the nearest workshops based on user location.
- Developed a feature-rich Admin Panel using Angular, allowing for event creation, ticket limit configuration, and triggering email notifications through integrated frontend interfaces.
- Integrated with RESTful APIs to efficiently handle and display workshop and event data, ensuring a seamless and responsive user experience within the Angular application.

Software Developer
Mudraangle Technologies LLP

Jan/2021 – Nov/2021
Pune, India

- Collaborated with the team to build interactive investment graphs for multiple time frames using Google Charts within a React environment.
- Built a SIP Calculator component in React to dynamically calculate and display investment returns based on user inputs.

HTML Developer
S2WMedia Pvt Ltd

July/2020 – October/2020
Pune, India

- Developed multiple landing pages within tight deadlines, incorporating animations and transition effects using Bootstrap. Managed email template creation and integration with PHP SMTP servers for effective communication.
