Profile

Full-Stack Web Developer with a passion for crafting dynamic, user-focused websites that blend innovation with functionality.

Proficient in both front-end and back-end development, I specialise in building responsive and visually compelling websites that deliver exceptional performance. Driven by creativity and precision, I'm eager to join a dynamic team where I can push boundaries and create impactful digital experiences.

Skills

Front End — HTML5 | CSS3 | SCSS | BOOTSTRAP | JAVASCRIPT | REACT.JS | JQUERY | AJAX | JSON

Back End — PHP | MYSQL | REST APIs

Design & Prototyping — FIGMA

Specialized Skills — PWA (PROGRESSIVE WEB APPS) | SEO (SEARCH ENGINE OPTIMIZATION)

Tools — GIT, GITHUB | POSTMAN | WEB HOSTING

Professional Experience

- Frontend Web Developer, FashionTV India**

12/2024 – 05/2025
Mumbai, India

 - Developed fully responsive websites, landing pages, and HTML emailers using HTML, CSS, SCSS, JavaScript, jQuery, and React. Ensured consistent performance and seamless user experiences across all screen sizes and devices.
 - Implemented interactive features and smooth animations using GSAP, AOS, and CSS keyframes. Also focused on improving visibility through on-page SEO techniques for better search engine ranking.
 - Handled deployment of projects to live servers using cPanel (GoDaddy) and used Git and GitHub for version control, ensuring organized code management and smooth team collaboration.
- Full Stack Web Developer, Pepmedia**

04/2024 – 10/2024
Mumbai, India

 - Optimize websites for search engines using on-page SEO techniques, schema markup, and dynamic meta tags with PHP. I manage databases with a focus on data integrity and use PHP Mailer for efficient email handling. I also handle web hosting and server deployment to ensure secure, high-performing websites.
 - Using HTML, CSS, Bootstrap, JavaScript, jQuery, PHP, and MySQL, I create responsive, user-friendly websites that balance design with functionality. I ensure timely delivery and lead front-end efforts to maintain cross-device compatibility and seamless user experiences.

Freelance Full Stack Developer , <i>Hertzsoft Technologies Pvt. Ltd</i> - Designed and developed full-stack web projects with responsive UIs using HTML, CSS, SCSS, Bootstrap, JavaScript, jQuery, and ReactJS. - Built back-end with PHP and MySQL, managing CRUD, authentication, sessions, and integrated APIs and PHP Mailer. - Deployed websites via Hostinger and GoDaddy, ensuring performance, security, and timely delivery through team collaboration.	04/2023 – 04/2024 Mumbai, India
UI Developer , <i>Cyber Managers Software Services Pvt. Ltd. (CMSS)</i> - Built and updated responsive front-end components using HTML, CSS, Bootstrap, JavaScript, and jQuery. - Used Git for version control and team collaboration. - Tested code locally and across browsers before secure deployment to ensure quality delivery.	11/2022 – 03/2023 Mumbai, India
Junior Web Developer , <i>Hertzsoft Technologies Pvt. Ltd</i> - Built responsive web applications using HTML, CSS, JavaScript, PHP, and MySQL for cross-device compatibility. - Enhanced websites by adding new features and improving performance based on client needs. - Delivered user-focused solutions with clean, modular, and maintainable code.	09/2021 – 10/2022 Mumbai, India

Education

B.A , <i>Maharashtra College Of Arts, Science & Commerce</i>	07/2018 – 07/2021 Mumbai, India
---	------------------------------------

Projects
