## Profile

A front-end developer with more than 3 years of experience specializing in building accessible and performance-driven applications using React, Next.js, HTML5, CSS3, and JavaScript. Proven ability to collaborate in agile environments, deliver clean and maintainable code, and enhance user experience through UI/UX improvements and responsive design. Experience in debugging complex UI workflows.

## Skills

React | Next.js | JavaScript | Typescript | HTML5 | CSS3 | Tailwind | Bootstrap | Zustand | MongoDB | Git | Figma | UX/UI Principles | Debugging | Problem Solving | Agile

## Professional Experience

**Tata Consultancy Services (TCS)**

12/2021 – Present

Software Engineer

- Developed and maintained a responsive Helpdesk Portal using HTML5, CSS3, JavaScript, and React, enhancing user engagement by 25% and streamlining the process of raising IT requests and complaints.
- Collaborated closely with the UI/UX team to build pixel-perfect interfaces for the portal, ensuring a seamless and intuitive experience for end-users submitting support tickets.
- Ensured consistent cross-browser performance across Chrome, Firefox, Safari, and Edge, delivering a reliable user experience for employees accessing the portal from diverse environments.
- Optimized portal performance by reducing initial load times and improving component rendering, resulting in quicker navigation through support workflows and increased user satisfaction.
- Wrote clean, modular, and maintainable frontend code adhering to industry best practices, which boosted code reusability across multiple request forms and cut frontend bugs by 25%.
- Engineered a role-based in-house learning portal for the client, allowing managers to assign training modules and monitor user progress.
- Integrated access control mechanisms to restrict content visibility based on user roles and learning paths, enhancing data privacy and content relevance.
- Implemented lazy loading and dynamic routing for educational modules, optimizing performance for content-heavy pages and large user datasets.
- Collaborated with the backend team to build secure APIs for fetching course content.

## Education

**BSc(H) Mathematics (8 CGPA)**

2018 – 2021

University of Delhi, New Delhi

**Diploma in Computer Applications (92.5%)**

2019 – 2020

University of Delhi, New Delhi

## Certificates
