Experienced Angular Developer with strong skills in frontend development, modern frameworks, and full web development lifecycle. Proficient in tools like Angular, TypeScript, and REST APIs. Strong communication and collaboration abilities. Seeking a challenging role to enhance problem-solving skills and contribute to high-impact projects.

Summary

- 3+ years of experience in the analysis, design, development, and implementation of JavaScript-based web applications.
 - Strong hands-on experience with frontend frameworks and libraries including **Angular**, **AngularJS**, **Express.js**, and **TypeScript**.
 - Proficient in core JavaScript concepts such as **DOM manipulation**, **event handling**, and **asynchronous programming**.
 - Skilled in building responsive UIs using **HTML5**, **CSS3**, **JavaScript**, **TypeScript**, and working with **JSON** data formats.
 - Familiar with development tools like **Visual Studio Code**, **IntelliJ IDEA**, and **Git version control**.
 - Experience in working with **MySQL** databases for data integration and CRUD operations.
 - Strong communication, interpersonal, and analytical skills.
-

Technical Skills

Frontend: Angular, AngularJS, TypeScript, JavaScript, HTML5, CSS3, SCSS, Bootstrap

State Management: NgRx, RxJS, Redux

UI/UX: Responsive Design, Cross-browser Compatibility, Accessibility, Pixel-perfect Implementation

Integration: RESTful APIs, JSON, MySQL, Node.js (basic), Express.js (basic)

Tools & DevOps: Git, GitHub, Angular CLI, Visual Studio Code, IntelliJ IDEA, Agile/Scrum

Other: Problem Solving, Team Collaboration

Experience

Angular Developer

Purple Squirrel Pvt. Ltd. (Group of Global Education Pvt. Ltd.)

January 2023 – Present

Collaborated with cross-functional teams to develop and maintain scalable Angular applications, focusing on clean, reusable code aligned with industry best practices. Contributed to both frontend development and integration with backend APIs while supporting smooth development and deployment processes.

- Developed user interfaces using **Angular**, **TypeScript**, and **JavaScript**.
- Built responsive layouts with **HTML5**, **CSS3**, and **Bootstrap**.
- Created and maintained frontend components and application features.
- Integrated **REST APIs** for dynamic data interaction.
- Participated in **code optimization** and configuration management.
- Fixed bugs and improved performance for scalable delivery.
- Explored and applied alternate solutions for better configuration.

Jr. Angular Developer

MDIT Services Pvt. Ltd., Nagpur, India

May 2022 – January 2023

Worked with frontend and backend teams to develop and maintain web applications using Angular. Focused on integrating RESTful APIs and enhancing application performance and usability.

- Developed and maintained web applications using Angular and TypeScript.
- Integrated frontend components with RESTful APIs for dynamic data handling.
- Collaborated with backend developers to support API development and ensure smooth data flow.
- Improved application performance by optimizing components and resolving bugs.
- Wrote unit tests for Angular components to ensure code quality and stability.
- Participated in Agile development and code review processes.

Jr. Angular Developer (Intern)

S2P EduTech Pvt Ltd, Nagpur, India

October 2021– April 2022

As an Angular Developer Intern, I was responsible for assisting with the development and enhancement of web applications. This role provided me with hands-on experience in front-end development using Angular, while also offering exposure to backend integration.

Project

Cyber Vidya (ERP System)

Duration: January 2023 – Present

Description: Cyber Vidya is a multipurpose ERP software for educational institutions to manage academic and administrative tasks such as course structures, documentation, tracking, and reporting.

Technologies: Angular, TypeScript, RxJS, NgRx, Angular CLI, HTML5, CSS3, SCSS, Bootstrap, Responsive Design

- Developed scalable Angular code following best practices.
- Debugged and resolved complex front-end issues for application stability.
- Optimized performance with lazy loading, AOT compilation, and change detection.
- Integrated RESTful APIs for efficient data operations.

Property Location Application

Duration: May 2022 – January 2023

Description: A web application allowing users to search, filter, and view real estate listings based on their preferences and location.

Technologies: HTML5, CSS3, JavaScript, TypeScript

Integrated backend APIs with the frontend for smooth data flow.

- Worked with backend teams to define and optimize endpoints.
 - Secured the app using Clerk for authentication.
 - Used TypeScript to improve code quality and maintainability.
-

AVM School Admin Panel

Duration: October 2021 – April 2022

Description: Built an admin dashboard for managing students, staff, and academic records, improving administrative workflows.

Technologies: Angular, TypeScript, JavaScript, HTML5, CSS3

- Designed clean, responsive UI.
 - Integrated REST APIs for data management.
 - Used Redux for state management and local storage for persistence.
 - Implemented role-based access control and protected routing.
-

Education

Bachelor of Engineering (Electronics and Telecommunication Engineering)
Anjuman College of Engineering and Technology, Nagpur
Rashtrasant Tukadoji Maharaj Nagpur University, India
Completed: July 2019
Percentage: 62.53%
