Work Experience

Associate Developer	HomeVille	Aug 1, 2024 - Present
Intern		Feb 1, 2024 - Aug 1, 2024

HCORE (CRM Platform) | Angular 17, HTML, CSS, Node.js, NGRX, Ng-Zorro

- Developed an internal **CRM platform** for support teams to manage cases, applicant/co-applicant data, banking/asset details, and document workflows.
- Implemented dynamic PDF generation using **HTML templates** for case documentation and reporting.

Bharat Housing Network (BHN) | Angular 17, HTML, CSS, Bootstrap 5, RxJS, Ng-Zorro, Git

- **BHN Lender:** Built features for partner collaboration, including **case management**, document vault, disbursement workflows (senior/junior lender splits), and loan sanction processes.
- **BHN Admin:** Enhanced **Partner Management** modules (branch profiles, banking/insurer details) and **Marketplace Dashboard** for service tracking and partner accessibility.
- Enabled cross-platform functionality with **BHN Admin-Interconnect**, allowing partners to view/edit lender-side data.

Singularity & Velocity | Angular 17, HTML, CSS, Bootstrap 5, RxJS, Ng-Zorro, Git

- Contributed to **Singularity** (a BHN-like platform) and **Velocity**, a unified project consolidating workflows across all BHN systems.
- Focused on reusable components, state management (NGRX), and performance optimization.

Key Contributions:

- Delivered critical modules (Partner Management, Marketplace) improving partner onboarding efficiency by 30%.
- Streamlined document workflows with dynamic PDF templates, reducing manual processing time.
- Collaborated with cross-functional teams to align frontend logic with backend APIs and business rules.
- **Upgraded BHN Lender to Angular 18**, resolving **security vulnerabilities** and package dependency conflicts, enhancing application stability and performance.
