PROJECTS

HGS- Hindustan Global Solutions

- Designed and developed a comprehensive employee portal for Hindustan Global Solutions (HGS) that centralizes employee information management and streamlines HR processes. The portal serves as a single point of access for employee data verification, education details authentication, and training management.

SL-Agarbatti

- Designed and developed a comprehensive B2B e-commerce website for SL-Agarbatti, enabling the company to showcase their product catalog to business clients. The platform serves as a digital product showcase with detailed specifications, helping SL-Agarbatti expand their market reach and streamline the wholesale ordering process.

Cadiveu

- Designed and developed a professional WordPress-based e-commerce website for Cadiveu, showcasing their premium hair treatment product line directly to consumers. This B2C platform presents the complete range of hair care solutions with detailed product information, usage instructions, and seamless purchasing capabilities.

Fishtokri

- Developed Fishtokri, an e-commerce platform specializing in fresh fish and seafood delivery. Designed and implemented a seamless user experience with features like real-time order tracking, secure payments, and optimized delivery logistics. Ensured high performance, scalability, and a mobile-friendly interface to enhance customer engagement. Integrated a robust backend system for efficient inventory and order management.

Light-Book International

- Light-Book International is a business-to-consumer (B2C) e-commerce platform specializing in a diverse range of lighting products. The platform offers an extensive selection of indoor and outdoor lighting solutions, including energy-efficient LED options, catering to both residential and commercial needs. By focusing on user-friendly navigation and a seamless online shopping experience, Light-Book International ensures customers can easily find and purchase the lighting products that best suit their requirements. The company's commitment to quality and customer satisfaction positions it as a trusted provider in the competitive online lighting market.

Angel One

- Worked on designing and developing responsive and engaging email templates for Angel One, a leading financial services platform. Ensured compliance with industry standards, optimized email deliverability, and enhanced user engagement through well-structured and visually appealing templates. Collaborated with marketing and development teams to streamline communication and improve client outreach.
