SUMMARY

I am a software engineer with over two years of experience and a strong foundation in computer science. I specialize in developing responsive and dynamic web applications, leveraging technologies like **HTML**, **CSS**, and **JavaScript** for front-end development. My expertise includes working with frameworks such as **React** and **Redux** to create interactive user interfaces. On the back end, I am proficient in **Node.js**, **NestJS**, and **Express**, with extensive experience in managing databases using **MongoDB** and **MySQL**. Additionally, I have a solid understanding of **AWS**, enabling me to design and deploy cloud-based solutions. I am passionate about applying my technical expertise and innovative thinking to contribute to collaborative teams, delivering impactful and user-centric solutions.

SKILLS

- **Programming:** HTML, CSS, Javascript, TypeScript, Java, MySQL, MongoDB.
- **Tools & Platforms:** Git, Github / BitBucket, Jira, npm, VS Code, Vercel, Postman.
- **Libraries & Frameworks:** React, Redux, Sass, MaterialUI, NodeJS, Express, NestJs, Axios, TanStack Query, Jest, RESTAPI.
- **OS:** Mac / Linux, Windows.
- **Soft Skills:** Problem Solving, Communication, Debugging , Creativity.

Experience

Software Engineer, Tricog Health – Bengaluru,INDIA Dec 2022 – Present

- **Tricog SaaS Admin Web/Server:** Developed and implemented the Tricog SaaS Admin Web/Server, ensuring secure registration for organizations/hospitals. Simultaneously writing unit tests and end-to-end test cases to enhance system reliability. This platform supports multiple configurations based on user preferences and provides seamless access to the main portal, Tricare.
- **Tricare:** Refactored the existing codebase to make it responsive and more user-friendly, following the provided UI design.
- implemented log tracer microservice to capture and keep track of audit logs.
- Collaborated with Google DevOps team to migrate from AWS to GCP.
- Build RESTAPIs to enable seamless communication between the front-end and back-end.
- Improved team efficiency and code quality through regular code reviews and training sessions.
- **Tricog Health.**

Web Developer Intern, PlayTech – Belgaum,INDIA May 2021 – June 2021

- Worked on the website Farm Automation System which is basically a web based system to manage farm and assets for small scale farm business.
- **PlayTech Certificate.**

Education

KLE Dr. M.S.Sheshgiri College of Engineering & Technology Aug 2021

- BE Computer Science and Engineering.

Masai School Dec 2021

- Full stack web development Course

Projects

Zara Clone github.com/zara/repo

- web application supporting end-to-end functionalities including user authentication, product search and filtering, add to Cart, payment, and user reviews
