Professional Summery

Experienced **React.js/Vue.js** Developer with 4+ years in building responsive web applications. Proficient in HTML5, CSS3, JavaScript, Git, React.js, Redux, Vue.js, Vuex. Skilled in translating complex **UI/UX designs** into high-quality code and optimizing performance.

Skills

- **Programming Languages:** Javascript, Python
- **Frameworks/Libraries:** Vue.js, React.js, Material UI, Bootstrap, Element plus, Vuetify
- **State Management System:** Redux.js, Vuex, Pinia
- **Version Control:** BitBucket, Git, GitLab, GitHub, SVN
- **Others:** HTML, CSS, JSON, Data Structures, Rest APIs, Microservices, Code Debugging, NPM, Webpack, Object Oriented Programming, System Design, Agile Software Development

Work Experience

Dassault Systèmes | Software Engineering Specialist *Pune, IN* July 2022 - Present

- Working on Dassault's Global Enterprise application using **Vue.js, VueX**, Vuetify, Element Plus.
- Utilized libraries like vue-draggable, CKEditor, Moment.js, and vue-i18n.
- **Migrated** 150+ components from **Vue2 to Vue3** and **Vuetify 1.5 to Element Plus**. Refactored for performance, removed unnecessary code, fixed numerous bugs, and improved UI design.
- Participated in weekly business meetings to clarify requirements and confirm UX mockups.
- Collaborated with backend developers to integrate **RESTful APIs**.
- Developed common components to maintain **80% UI consistency**, simplify code, and ease debugging.
- Ensured responsive design, cross-browser compatibility, and performance optimization.

Cognizant | Programmer Analyst *Pune, IN* March 2021 - July 2022

- Developed and maintained SPAs using **React.js, Redux**, and Bootstrap 4 for an automatic interview scheduler.
- Utilized libraries like **react-paginate, Moment.js**, EmailJS, and Draft.js.
- Collaborated with onshore UX and business teams and offshore backend team.
- Reviewed code after each sprint to enhance quality and maintainability.
- Worked in Agile, joining sprint planning and daily stand-ups for updates.

Projects

3D Support App

3D Support App is a web application enabling users to submit, consult, and modify issues related to Dassault's products and apps deployed utilizing Javascript, Vue.js, Vuex, Element plus to ensure seamless functionality and robust performance.

Automatic Interview Scheduler App

A web application designed to streamline the interview scheduling process, built using React.js for the front-end, Redux for state management, and Bootstrap for a responsive, user-friendly interface.

Education

Bachelor of Engineering

Pune, IN 2016 - 2020

CGPA: 8.01
