WORK EXPERIENCE

CognoRise InfoTech

Frontend Developer Intern

Mar 2023 - May 2023

- Developed responsive and user-friendly frontend interfaces using ReactJS.
- Integrated Fake Store APIs to dynamically fetch and display data.

Reknot Solution Pvt. Ltd

Full Stack Developer Intern

Feb 2022 - Jun 2022

- Developed a registration site for Reknot Solution Pvt. Ltd using PHP-Laravel, enabling individuals to register for internships with the company.
- Created views for the registration form and success message.
- Utilized Laravel validation features to validate registration form inputs in the controller.
- Processed form submissions in the controller, storing valid entries in the database and redirecting to a success page.
- Displayed a success message on the success page, confirming registration.

EDUCATION

SES Yadavrao Tasgoankar Institute of Engineering and Technology

Computer Engineering - 7.50

Aug 2022 - July 2025

Government Polytechnic Mumbai

Information Technology - 80.36%

Jun 2019 - April 2022

PROJECT

Football Academy Responsive Site (Sponsor) [🔗](#)

Aug 2024 - Nov 2024

- Built The Rising Sun Football Academy website using the MERN stack, with Redux for state management and Figma for UI/UX.
- Developed a responsive platform for players to explore program, register, and access schedules effortlessly.
- Added features like progress tracking and match updates to boost parental engagement and connectivity.
- Highlighted achievements through dynamic content, hosted on AWS for scalability and reliability.

College website for LMS portal (Sponsor)

Sep 2024 - Present

- Designed a responsive college website using Next.js, React.js, Node.js, Express.js, and MongoDB.
- Implemented event management, notices department info, syllabus, and contact forms features.
- Utilized Tailwind CSS for a modern and responsive UI design.
- Integrated Cloudinary for media management and JWT for secure authentication.

SKILLS

- Front-end: HTML, CSS, JavaScript, React.js.
- Back-end: Node.js and RESTful API design.
- Tools: Git, GitHub, POSTMAN API, Tailwind CSS, GraphQL..
