EXPERIENCE

MASTEK LTD

April, 2024 - present

Software Developer

- Collaborated with the team to deliver CG Pro App, a quick-deployment customer application within 2 months using Angular 17, focusing on performance.
- Worked on the JLA application, enabling users to buy detergent online and access laundry equipment support, including booking repair visits directly from the platform.
- Implemented reusable Angular components and dynamic forms to enhance application maintainability and scalability.

CLARITECH SOLUTIONS LTD

March, 2022

Angular Developer

- Designed and developed web applications using Angular, TypeScript, and Bootstrap for responsive design.
- Developed reusable components and services to standardize application logic and reduce redundancy.
- Integrated third-party libraries and APIs, ensuring secure and scalable implementation.

PROJECTS

MEDICAL AND CLINIC DOMAIN

The main aim of the application is to provide users with a seamless online platform for consulting doctors, booking appointments, and managing health checkups, ensuring easy access to a wide range of medical services.
