PROFILE SUMMARY

I'm a Motion Graphic Designer and UI Developer, blending art and functionality to craft stunning 2D/3D designs and intuitive digital environments.

With a versatile portfolio across multiple sectors, I focus on creating designs that not only impress but also enhance user experiences and storytelling.

I'm skilled in leading design software, translating concepts into impactful visuals.

From collaborative projects to solo ventures, my work is driven by a commitment to innovation, attention to detail, and delivering results that exceed client expectations.

WORK EXPERIENCE

Edusol Education PVT LTD

OCT 2023 - PRESENT

Senior Designer | UI & Motion Graphics

- Developed visual designs to represent brand values across platforms, including social media, websites, and marketing materials, ensuring consistent messaging and identity.
- Improved customer experience and attracted potential buyers through visually appealing designs, fostering trust and building long-term client relationships.
- Designed and created a comprehensive student lesson book for K-12 students, handling the full process from layout and cover design to infographics, illustrations, image editing, and typography.
- Produced 2D animated lesson videos, working on both character design and animation to enhance educational content.
- Created simple 3D models and animations, including character rigs, color textures, movement animations, and detailed background scenes, adding depth and engagement to projects.

Integra Software Services

NOV 2019 - OCT 21

Graphic Designer

- Worked as a creative artist for an E-Book publishing company, and created storyboards and character art to visualize and enhance stories. Used the mesh tool in Illustrator for realistic image recreations.
- Designed banners, posters, and book covers using Photoshop developed matte painting backgrounds to enrich visual content.
- Designed book page layout, Typpography,Digital publications, interactive PDFs, and e-books.
- Check and organizing the page layout in InDesign, including defining margins, columns, and grids. including font choices, line spacing, tracking, and leading to maintain visual consistency and readability.
- Ensuring text flows properly across pages and sections, handling text boxes, and ensuring consistency in text styles
- I am developing reusable templates for different types of publications, ensuring consistency in layout and design across the entire document or series.
- Reviewing the content for typographical errors, layout inconsistencies, and image quality issues before the final design is sent for printing or digital distribution.
- I sm ensuring the correct use of color, particularly in print layouts, ensuring the correct CMYK color profiles are used to avoid color discrepancies in the final product.
