Project

New Q3d

TECHNOLOGY :: Javascript, Vite, jequery ,HTML & CSS , Boostarp,

ROLE:: UI + Frontend developer

RESPONSIBILITIES::

Convert visual designs (often provided by UX designers) into responsive, interactive web pages using HTML, CSS, and JavaScript.

Implement the TDS plugin and the TDSFabric plugin, integrating them with the API to ensure smooth functionality and data processing.

Troubleshoot and fix bugs and errors, ensuring the application runs efficiently and without issues.

Collaborate with team members to improve user experience and optimize the frontend performance.

Design Archive

TECHNOLOGY :: Javascript, React ,HTML & CSS , React-Boostarp

ROLE:: UI + Frontend developer

RESPONSIBILITIES::

Develop an analytics page within the project, utilizing React for dynamic rendering and state management.

Design and implement various charts (such as bar, line, and pie charts) to visually represent API data. Use libraries like Chart.js for creating interactive, responsive charts.

Integrate the analytics page with backend APIs to fetch and display real-time data on the frontend.

Ensure the page is fully responsive and optimized for both desktop and mobile users.

Collaborate with UX designers to align the visual design with user requirements and project specifications.

Troubleshoot and fix any frontend issues related to chart rendering, data fetching, or API integration.

q3d plugin

TECHNOLOGY :: HTML & CSS, Javascript, Webpack

ROLE:: UI + Frontend developer

RESPONSIBILITIES::

Create an interactive visualization of fabric draping that allows users to see how fabrics react in different poses, angles, and sizes.

Integrate this tool seamlessly into e-commerce websites, allowing customers to view realistic fabric draping before purchasing.

Develop the functionality for the Q3D plugin with a focus on a user-friendly interface (UI)

Webpack for bundling and optimizing assets, ensuring efficient plugin performance and create single js file

Collaborate with backend developers to ensure proper data flow and interaction with the plugin

Virtual Tryon sites

TECHNOLOGY :: HTML & CSS, Boostarp, Javascript, Opencart,php,MySQL

ROLE:: UI + Frontend developer

RESPONSIBILITIES::

Develop new virtual try-on sites based on client requirements, ensuring a user-friendly and interactive experience.

Create and implement new features to increase user engagement and enhance the overall time spent on the site.

Design and optimize the user interface (UI) to ensure seamless navigation and a positive user experience.

Fix bugs and handle errors, ensuring smooth functionality and resolving any issues that may arise during development or post-launch.

Collaborate with backend developers to integrate frontend elements with the OpenCart platform, ensuring a seamless user experience.

Continuously test and improve site performance across different devices and browsers.

Personal Details

Name : - Akash Vijay Chavan

Date of Birth :- 29th oct 1999

Languages Known :- Marathi , English , Hindi

Address : Sunrise park view, Padle Gaon, Thane, Maharashtra 421204

I am also confident of my ability to work in a team. I hereby declare that the information furnished above is true to the best of my knowledge.
