Mumbai University

- **BNN College** - Maharashtra, India
Bachelor of Science in Information Technology (B.Sc. IT) | CGPA: 9.4 | Aug 2019 – May 2022
- **BNN College** - Maharashtra, India
12th Grade in Science Faculty | Percentage: 55.38% | Aug 2017 – May 2019

Professional EXPERIENCE

Full-Stack Developer Gold Berries Technology | Vashi, Navi-Mumbai, MH, India | Feb 2023 – Present

- Developed and deployed scalable applications using **Django**, **Node.js**, **ReactJS**, and **CodeIgniter**.
- Designed and implemented **REST APIs** to enhance backend functionality.
- Built interactive user interfaces with **ReactJS** and ensured responsiveness across devices.
- Streamlined database operations using **MySQL** and integrated **MongoDB** for specific projects.
- Led middleware development, ensuring seamless communication between systems.

Sankey Solutions | Thane, Maharashtra, India | Jun 2022 – Nov 2022

- Worked as a **Full-Stack Developer** utilizing **ReactJS**, **Angular**, and **Django**.
- Enhanced web application performance and scalability by implementing **Web APIs** and middleware components.
- Collaborated on dynamic and responsive UI development, improving user experience.
- Integrated **Django** with front-end technologies, creating efficient and secure web solutions.

PROJECTS

Upchar – Online Doctor Consultation Platform

- Developed a comprehensive platform enabling users to consult doctors via chat and video calls.
- Built features for appointment booking, real-time messaging, and secure payment processing.

- Designed the UI with **ReactJS** and **Styled-Components**, ensuring an intuitive user experience.
- Deployed APIs for seamless communication between users and the platform.

Home Rentallization Platform

- Created a rental listing platform using **Django** for both frontend and backend.
- Integrated features for detailed property descriptions, image uploads, and renter-owner communication.
- Ensured smooth scheduling and messaging functionalities for enhanced usability.

Tally Accounting Module

- Collaborated on building an accounting system similar to Tally using **CodeIgniter** and **PHP**.
- Simplified financial data visualization with user-friendly dashboards and summaries.
- Integrated database queries for efficient accounting operation
