EDUCATION

DY Patil International University

BCA in Mobile Applications and Web Technology

Aug 2019 - June 2022

SKILLS

React.js, Node.js, Express.js, MongoDB, HTML, CSS, JavaScript, TypeScript, REST API, Redux, Redux Toolkit, Bootstrap, Material UI (MUI), AWS EC2, AWS S3, Docker, Netlify, Git, Figma, CI/CD, CircleCI, Jenkins.

SUMMARY

A skilled and detail-oriented MERN (MongoDB, Express, React.js, Node.js) Stack Developer with 2.5+ years of hands-on experience in building and maintaining dynamic, full-stack web applications. Proficient in designing, developing, and deploying scalable, user-centric solutions from front-end to back-end.

EXPERIENCE

Software Engineer | RSL Pvt Ltd

June 2022 - Till date

- Led the development of an advanced eCommerce platform, delivering visually appealing, optimized, and SEO-friendly websites that enhanced user engagement and significantly improved the overall user experience.
- Developed reliable and scalable online applications using a full tech stack, including HTML, CSS, JavaScript, React.js, Redux Toolkit, Next.js, Node.js, Express.js, and MongoDB
- Directed the design and development of a powerful CRM system, engaging website landing pages, and streamlined admin dashboards, offering personalized solutions to address various client requirements.
- Implemented OAuth 2.0 authentication using Passport.js, enabling secure third-party login and authorization for a seamless user experience.
- Assisted in the development of a KYC portal, ensuring a smooth and efficient user experience within the eCommerce sector.
- Managed team collaboration and version control using Git/GitLab, while overseeing swift and efficient application deployment across platforms such as AWS, Google Cloud, Vercel, and Digital Ocean
- Implemented CI/CD pipelines using Jenkins, integrating Docker for containerization and deploying applications on AWS EC2, ensuring smooth and efficient deployment processes.
- Implemented alerts, permissions, and JWT-based email authentication, utilizing AWS Simple Email Service (SES) for efficient delivery of reports and user updates.

PROJECTS

Felicitas-Online-Video-Streaming

- Designed and developed a responsive user interface using React.js, applying modern design principles to create an intuitive and engaging user experience.
- Integrated features such as search, filtering, video recommendations, and dynamic playlists using React.js components.
- Developed a RESTful API with Node.js and Express to manage video uploads, user registrations, subscriptions, comments, and likes.

CERTIFICATIONS

- Coding Ninjas - Back End | Full Stack Web Development in Node.js
- Coding Ninjas - Front End | Full Stack Web Development in React.js
- Zero To Mastery - Node.js, Express, GraphQL, RESTful API, MongoDB, SQL, MERN

OPEN SOURCE PROJECTS

- Currency-Number-Formatter – A lightweight JavaScript/Node.js library that formats large numbers into human-readable abbreviations with optional currency support. For more details please visit npmjs.com/package/currency-number-formatter

KEY COMPETENCIES

- Passionate to learn something new and always ready to upskill.
- Team Player
- Problem Solving
- Communication

LANGUAGES KNOWN

–Hindi:

- Fluency Level: Native
- Proficiency in reading, writing, and speaking

–English:

- Fluency level: Proficient
