

ABOUT US

A differently kindred kind!

Everyday is not just a working day for us, we go to work to innovate, share ideas and create small-wonders, making the world a little simpler and connected place each day.

Though global, our minds are always busy as a bee finding out cutting edge digital solutions backed with the steady architectural backbone that makes us dive deeper and get to the heart of the evolving models.

We provide Quality, Integrity and Knowledge for a reasonable price. We have very strong software engineering processes. We have global operations across the world and have satisfied customers.

Response To Ever Changing Needs

Adding Value To Customer Needs

OUR Services

The World is converted into a global village. The political boundary is no anymore to limit our growths. We are in a global market with huge scope of products and services demand. To grow our business products and services, our globally appearance is necessary. The World Wide Web is the sure and shortest roots to admit global appearance. The ZeroSoft is in the position to coordinate at this junction.

OUR Technologies

Our Customer-base will always feel assured that they are having the latest technologies being utilized in the development of their projects for **Web development (Angular, PHP, .NET, HTML5, CSS3, React.js, Node.js, Python, Flutter, PHP Frameworks, Open Source CMS Platforms)**, **Mobile Application development (Hybrid using Ionic Framework, Phonegap, Native Android, Native iOS)** and **Data Entry Jobs**. ZeroSoft understands the importance of having an application that runs properly by performing various tests on both web & mobile applications such as User & Manual Testing and ensuring the application is running smoothly and as intended is critical to the success of any application.

OUR Testimonials

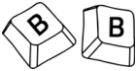

The ZeroSoft Team has been easy to work with and has implemented last-minute changes with efficiency and professionalism. Reentry Plus would like to extend a huge thank you to the ZeroSoft team for their exceptional work. The team's creativity, attention to detail, and ability to align the design with the Reentry Plus brand vision have been nothing short of outstanding. The dedication and talent shown by the ZeroSoft team are clearly reflected in the final product, and Reentry Plus couldn't be more pleased with the results.

Zerosoft has been excellent in updating our old app for both Android and iOS. They have been helpful in making changes and communicating with Apple, to ensure app appears on the App Store. Have had Zerosoft do a couple projects for me and am happy with the results. Easy to work with and is very reliable when I need things updated/adjusted. Will continue to work with them, very satisfied.

Zerosoft Innovative IT Solution, lead by Mr. Anand, is the best tech company for website programming I have ever worked with. They were very professional in handling the requirements of the project, worked on feedback and updates in a timely manner. They had a good work ethic and were always ready to put in the needed time to do whatever was required.

The people at ZeroSoft were easy to work with. The logo they made was exactly what I asked for. Feedback was fixed as requested. All done professionally.

Team of great professionals. Listen to every requirement carefully. Will definitely recommend it for all kinds of web development projects. Good luck.

I found the team at Zerosoft to be knowledgeable, courteous and responsive to our needs. They did a very good job and performed these tasks ontime. They estimated the task and stayed with that estimate. I will definitely reach out to them again.

We use this company almost exclusively for our internal designs. They are very talented, responsive and attentive to our needs/timelines.

Zerosoft team are great to work with. They are professional, patient and deliver to specifications. I highly recommend Zerosoft!

Professional freelancer, great communication and prompt, 7 days a week. Excellent logo designs and products. Highly recommended than others.
