Summary

A passionate and results-driven Full Stack Developer with 1.7 years of professional experience in frontend development using ReactJS, now expanded to full-stack development with expertise in the MERN (MongoDB, Express.js, ReactJS, Node.js) stack. Skilled in developing scalable, user-friendly applications and implementing best practices in modern web development.

Work Experience

Infosys Limited

12/2021 – 07/2023

Systems Associate

- Developed, implemented, and tested E-Sales Service applications, showcasing end-to-end expertise.
- Hands on experience on creating interactive user interfaces using React, JavaScript, Material UI, HTML, CSS.
- Hands on experience on redux and react hooks.
- Used axios for making REST API calls in react.
- Converted Figma into reusable UI component.
- Handled development tasks and resolved bugs to ensure smooth operations.
- Used Git for source code management.
- Involved in client discussions to comprehend requirements, address urgent support concerns, and resolve UAT issues.
- Prepared comprehensive technical documentation and delivered presentations to stakeholders.
- Consistently adhered to agile methodology for efficient project management.

Technical Skills

- **Frontend:** HTML, CSS, Material-UI, Bootstrap, Tailwind CSS, JavaScript, ReactJS, Redux
- **Backend:** NodeJS, ExpressJS, RESTful APIs, MongoDB
- **Tools:** Git, GitHub, VS Code, Postman

Education

Guru Nanak Khalsa College, Mumbai

2021

Bachelor of Science in Information Technology

CGPA: 8.43/10

S.S.S Multipurpose technical jr college, , Mumbai

2018

HSC

Percentage: 63.23/100

Vanita Vikas Vidyalay, Mumbai

2016

SSC

Percentage: 82.40/100

Projects

1. E-Sales and Service Application

- **Client:** A leading Company in Computer Applications, USA.
- **Role:** Frontend Developer
- **Role Description:** I have implemented requirements gathered from clients, providing end-to-end solutions. I developed user interfaces based on client specifications and resolved bugs for smooth operations.
- **Technology:** HTML, CSS, Javascript, ReactJs, Redux, Material-UI, GraphQL , Axios

2. Tictactoe Game: <https://vinita1512.github.io/tictactoe/>

- **Technology:** HTML, CSS, Javascript, ReactJS, Tailwind CSS
- **Description:** Developed a fully functional Tic-Tac-Toe game where two players can compete on a 3x3 grid. The game includes player choice (X or O), turn-based gameplay with visual indicators, win and draw detection, and a reset functionality for starting new matches.

3. Task Management App: <https://task-management-jsy5.onrender.com>

- **Technology:** HTML, CSS, Javascript, ReactJS, Tailwind CSS, Redux, MongoDB, ExpressJS, NodeJS, Axios, JWT, RESTful API
- **Description:** Developed a full-stack task management app using the MERN stack (MongoDB, Express.js, ReactJS, Node.js) to help users efficiently manage tasks. Features include secure user authentication, task creation, deletion, updates, prioritization, and status tracking.
