Professional Summary

Results-driven **Frontend Developer** with **3+ years of experience** in building responsive, scalable web applications using **React, TypeScript, JavaScript, and modern UI frameworks**. Proficient in integrating APIs, optimizing performance, and writing clean, maintainable code. Adept at collaborating with cross-functional teams in agile environments, with a strong grasp of **component-based architecture, web accessibility, and secure backend integration**. Eager to contribute innovation, adaptability, and a user-focused mindset to a forward-thinking engineering team.

Education

College of Engineering Roorkee | Bachelor of Technology in Electronics and Telecommunication
Graduation Date: **December 2020**

Experience

Coreyo

Bengaluru, India

Software Development Engineer I

October 2023 – Present

- Developed responsive user interfaces using **React, TypeScript, and SCSS**, enhancing usability and performance across devices.
- Integrated **RESTful APIs** and dynamic data tables, improving real-time data accessibility and visualization.
- Streamlined **payment gateway integration**, reducing transaction failures by 15% and improving checkout reliability.
- Built **role-based access management** features to control permissions by department/designation, increasing security.
- Utilized **React Hooks** for optimized form validation and component state management, improving page responsiveness.
- Collaborated in cross-functional sprints to deliver high-impact features, accelerating release cycles by 20%.
- Developed backend services using **Go** for handling third-party APIs (order creation, cancellations, pricing).
- Created and secured APIs with **JWT**, enhancing data protection and access control.
- Implemented **OTP verification** to strengthen user authentication and reduce unauthorized access.

Capgemini

Bengaluru, India

Associate Software Engineer

February 2022 – September 2023

- Built a network monitoring system using **Vue.js and Tailwind CSS**, improving packet-loss detection and diagnostics.

- Integrated **FTP/SFTP protocols** for external device connections and automated **CSV data extraction**, improving reliability.
- Developed tools for **network traffic analysis**, increasing network efficiency and reducing failure points.
- Optimized data pipelines to enhance **accuracy, timeliness, and overall network performance monitoring**.

Skills

- **Languages & Frameworks:**
HTML, CSS, JavaScript, TypeScript, React, React Hooks, Vue.js, Go (Golang)
- **Styling Libraries:**
Tailwind CSS, SCSS
- **Backend & Databases:**
MongoDB, MySQL
- **Testing & Dev Tools:**
Jest, React Testing Library, Cypress, Git, GitHub Actions
- **Concepts & Methodologies:**
REST APIs, JWT Authentication, Agile/Scrum, UI/UX Design Principles, Web Performance Optimization, Cross-Functional Collaboration, Version Control, Component-Based Architecture
