Languages: JavaScript, ECMAScript, TypeScript, React JS, Redux, HTML, CSS, Material UI, Tailwind CSS, SAAS, Node JS

Technologies & Tools: GCP, YellowFin, Insite, Salesforce, Webpack, Jest, Git, GitHub, Jira, Chrome DevTools, Figma, Adobe XD

Work Experience

IKS HealthCare, Navi Mumbai

Mar 2022 - Present

Software Engineer

- Engineered and maintained 10+ real-time healthcare dashboards using Yellowfin, accelerating data-driven decisions for clinicians by 35%.
- Collaborated with UX/UI teams to design and implement fully responsive, cross-browser-compatible interfaces, increasing user satisfaction scores by 20%.
- Integrated RESTful APIs to automate live data ingestion from healthcare systems, improving data accuracy and refresh rates by 40%.
- Optimized dashboard performance by executing load testing and refining rendering logic, reducing average load times by 50%.
- Applied SEO principles and responsive design strategies to ensure accessibility and discoverability across platforms.
- YellowFin, HTML, CSS, React JS, Chart JS, GCP

Adapty Solutions, Thane

Jun 2019 - Mar 2022

Front End Development Engineer | B2B & B2C E-Commerce Platforms

- Built and maintained dynamic e-commerce websites for B2B and B2C clients, including Stellar Industrial and ConneyBrothers, supporting thousands of monthly users.
- Implemented core features such as advanced product catalogs, interactive shopping carts, and secure payment gateways, driving a 25% increase in customer conversion rates.
- Collaborated with UI/UX designers to create intuitive, user-centered interfaces, enhancing user engagement and reducing bounce rates by 18%.
- Optimized cross-platform and cross-browser compatibility to ensure a seamless experience across desktop, tablet, and mobile devices.
- Utilized React.js and Redux to build scalable, high-performance components, improving code maintainability and development speed.
- Node JS, ReactJS, Redux, Dot Net, SQL, Insite Platform, SAAS, HTML, CSS

Project Work

- **Polaris 2.0:** Developed a healthcare Dashboard that shows the Analytics representation of the number of Visits, Payments, Charges of a patient, and other metrics like Charge Lag Days, MNCR, Credits, Days in AR, Denial Rate, Denial W/O, and Bad Debt W/O.
- **Stellar Industrial – B2B E-commerce Platform (<https://www.stellarindustrial.com/>):** Developed and maintained a B2B e-commerce website enabling users to log in, browse products via PLP and PDP pages, add items to the cart, complete orders through a multi-step checkout process (cart, checkout, payment), and view order history on the order page.
- **Conney Brothers (<https://www.cooneybrothers.com/>):** Developed and maintained a B2B e-commerce website using React.js, JavaScript, TypeScript, Redux, .NET, SQL, and the Insite CMS platform. Implemented user authentication, product browsing (PLP/PDP), cart management, multi-step checkout (cart, checkout, payment), and order history tracking.

Certificates

- React JS Course From Namaste Dev.
- Front Development Course on Coursera

Education

University Of Mumbai
M.Sc. in Computer Science

June 2016 - April 2018
