

EDUCATION

- **Indian Institute of Information Technology Design and Manufacturing (IIIT)** Kurnool
Bachelors in Technology in Mechanical Engineering; GPA: 7.9 2019 – 2023

EXPERIENCE

- **Indian Urban Data Exchange** Bangalore
Associate Software Developer May 2023 - Present
 - **UGIX**: A Geo-spatial data exchange platform, which connects over 30 data providers and 650+ resources with consumers
 - * Responsible for the complete revamp of the User Interface using **Angular** and developed advanced map and analytics based modules, using **Keycloak, Leaflet and Datatables**
 - * Leading a team of three developers while contributing to project development.
 - * Increased the test coverage from **below 50% to above 80%** for the whole project using **Karma and Jasmine**.
 - **Canvas**: A map based data visualization tool which plots geo-spatial data and handles data of over 2GB each
 - * Constructed various features like automated zoom that improved overall application usability.
 - * Developed using **React and Open Layers**, to streamline data processing for over 1M data points.
 - **IUDX**: A data exchange platform for urban data, which onboards 50+ cities and facilitates data exchange of 700+ datasets
 - * Migrated project from cat server to iudx server and reduced the app load time by optimizing the API calls.
 - * Developed Various core flows and features of the application, Refactored the code and enhanced the code readability and re-usability.
- **Indian Urban Data Exchange** Remote
Software Developer Intern May 2022 - Nov 2022
 - **Story boards**: A data apprehension tool which presents the data in a story format. Prepared base reference repository for the project that reduced development time, using **React, Open Layers, Geo-Json and Leaflet**
 - **Adaptor framework**: A generic and pluggable data utility tool based on Apache Flink. Designed a form based User interface for the application using **React**
- **AeglePro, IITM** Remote
Mobile Application Developer Intern Jan 2022 - May 2022
 - **AeglePro**: A cloud-based Mobile Clinical Management platform which is focused on Physiotherapists that reduces the operational cost. Created responsive UI for client facing app that has over 1k downloads using **Flutter** and implemented native android background services

PROJECTS

- **Neon Widgets Package**: Neon widgets is a **open source Flutter** library which is compatible with all the platforms and provides 15+ fully customizable neon widgets and effects that can give neon touch to other widgets as well.
 - **95+ likes, 300+ monthly downloads** on average on Pub.dev.
 - Actively maintained, well documented and meets open source community standards.
 - Featured in various newsletters like 'I should go to sleep'
- **Enigma Runner Game** : Enigma Runner is a platformer game, with 5 levels. Each level has some mind boggling twists at the end, which the player needs to solve using the in-game hints
 - Has received **4.7 stars** out of 5 on the Google Play Store with web version being deployed on itch.io
 - Developed an optimized app using **Unity and C#**, achieving a size under 50 MB while maintaining smooth performance.
- **Customizable Portfolio**: This is a Complete customizable Software Developer Portfolio Template in neon theme made using **Flutter**, which lets users showcase their skills, projects, experiences and 10+ professional aspects.
 - Designed responsive design solutions to ensure optimal user experience across all screen sizes and devices.
 - Generated an average of 100+ views weekly on GitHub

SKILLS

- **Languages**: JavaScript, TypeScript, Python, Java, SQL, HTML, CSS
- **Technologies**: Angular, React, Flutter, Android, Unity
- **Tools**: Git, GitHub, Postman, Karma, Jasmine, Firebase, Android Studio
- **Other Skills**: Data Structures & Algorithms, UI/UX, Software Development, Data Analysis

ACHIEVEMENTS

- **Yukti**: Ranked in the **top 250 out of 1 lakh projects** in the **Yukti Innovation Challenge**, organized by the Government of India
- **IPDIMS** : Published research paper titled "Integrating Hand Gesture Tracking with Physical and Digital Twin of Robotic Arm" in 5th international conference of IPDIMS
- **IIITDM** : Served as placement cell coordinator, photography club coordinator, GDSC android lead and flutter facilitator
