WORK EXPERIENCE

Nullclass

Jan 2025 – May 2025

Frontend Developer

During my 5-month internship at NullClass, I worked as a Frontend Developer, where I was responsible for building and maintaining interactive, responsive, and user-friendly web interfaces. My role involved collaborating with designers and backend developers to deliver high-quality features and enhancements aligned with user needs and business goals.

CodTech IT Solutions

Jan 2025 – Feb 2025

Frontend Developer Intern

Completed a 1-month intensive internship in Frontend Web Development at CodTech IT Solutions, where I focused on building modern, responsive web interfaces using React.js and Tailwind CSS. Developed responsive UI components using React.js, enhancing usability and performance.

EDUCATION

Government Polytechnic Mumbai

Jul 2022 – Jun 2025

Diploma in Information Technology

Pass out percentage-87%

PROJECTS

IMDB Clone – Movie Discovery Web App

A feature-rich movie discovery platform built using React.js that replicates key functionalities of IMDB. The app allows users to explore movies, view detailed information, and manage personalized watchlists and favorite actors.

- **Movie Listings:** Browse movies by category – Top Rated, Popular, and Genre-based.
- **Movie Details Page:** Displays cast, trailers, ratings, reviews, and additional metadata using the OMDB API.
- **User Authentication:** Secure login and signup modals integrated with Firebase Authentication.
- **Watchlist & Favorites:** Users can add movies to a watchlist and mark actors as favorites.
- **Dark/Light Mode Toggle:** Implemented theme switching with persistent user preferences.
- **Responsive UI:** Designed using Tailwind CSS for seamless experience across devices.
- **Routing:** Navigated using React Router with dynamic routes for movie and actor details.
- **Recommendations:** Displays personalized recommendations based on watchlisted genres.
