TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Redux, Redux Toolkit, React Testing Library, Jest, MongoDB, Tailwind CSS

Tools & Technologies: Git, GitHub, VS Code, Postman, Chrome DevTools

Other: Data Structures and Algorithms (DSA), DBMS, Low-level design, High-level design, Microservices, System Design

EXPERIENCE

KindTech Private Limited

Feb 2023 – Present

Software Engineer

Delhi, India

- Led the end-to-end development of a **discount management application** using **Next.js**, empowering merchants to seamlessly apply percentage-based or fixed discounts to products.
- Engineered an automated discount lifecycle system using **Node-Cron**, enabling merchants to schedule sales events with start/end times. Built logic to auto-revert prices post-sale and synchronize updates across all Shopify sales channels, reducing manual effort and ensuring pricing accuracy.
- Integrated **Redis-backed Bull Queue** to asynchronously process bulk discount jobs for **75,000+ products per merchant**, ensuring high scalability and peak performance during heavy sales periods.
- Developed secure **REST APIs** with **JWT authentication** using **Node** and **Express**, ensuring robust security and efficient user authorization for seamless platform integration.
- Consumed **GraphQL API** for dynamic querying and integrated real-time updates via **Webhooks**. Managed application data with **MongoDB**, optimizing bulk operations for high performance and scalability.
- Implemented a countdown timer on product pages using Shopify App Embeds and Metafields, significantly increasing urgency-driven purchases and boosting conversion rates.
- Enhanced user experience by implementing features such as **Debounced Search**, **Shimmer UI** for skeleton loading, and **short polling** for near real-time updates, improving application responsiveness and engagement.
- Optimized **Web Vitals** and reduced **Largest Contentful Paint (LCP)** by **35%**, significantly improving page load times, application speed, and user satisfaction.
- Integrated **real-time email notifications** via **SendGrid**, providing merchants with timely alerts on sale statuses and updates, enhancing engagement and driving repeat sales.
- Enabled **real-time monitoring and debugging** using **Better Stack** and **Sentry**, ensuring seamless performance tracking, proactive issue resolution, and operational stability.
- Collaborated with clients to deliver impactful features, **resolve production issues**, proactively address **critical bugs**, contributing to a 4.9 star rating and **200+ 5-star reviews** on the Shopify App Store.

Pepcoding Education Private Limited

Apr 2022 - Oct 2022

Web Developer Intern

Noida, UP

- Worked closely with senior developers to implement responsive web interfaces using **React**, **HTML**, **CSS**, and **Bootstrap**.
- Ensured seamless performance and compatibility across major browsers through rigorous testing and debugging.
- Gained hands-on experience with modern frontend technologies.

PROJECTS

Food Ordering App | *React, Redux, Tailwind CSS, Express.js, MongoDB*

[Live - Code](#)

- An app to streamline browsing, ordering, and tracking meals from multiple restaurants, while providing owners with efficient management tools and secure payment integration.
- Utilized **Cloudinary** for seamless and optimized image uploads, ensuring high-quality visuals for menu items.
- Integrated **Stripe** for a secure and streamlined checkout experience, facilitating smooth and reliable payment processing.

EDUCATION

ZHCET, Aligarh Muslim University

2018 - 2022

Bachelor of Technology(Electrical Engineering (9.3/10 GPA)

Aligarh, UP

CERTIFICATES/ACHIEVEMENTS

- Solved 500+ problems on [LeetCode](#).
- React - The Complete Guide (2024)—UDEMY.
