SUMMARY

Front-End Developer with approximately 2 years of experience building responsive and user-friendly web applications using JavaScript, React.js, and modern UI frameworks such as Tailwind CSS, Bootstrap and Matreial Ui. Adept at translating UI/UX designs into clean, efficient code and developing scalable front-end systems. Brings a collaborative attitude, strong attention to detail, and a continuous learning mindset aligned with industry best practices.

EXPERTISE

- Programming Languages: HTML, CSS, JavaScript, Node, React Js, Redux, Redux Toolkit
- Libraries & UI: Tailwind, Bootstrap, Matreial Ui, Shadcn
- Version Control: Git

WORK EXPERIENCE

Sartia Global Private Limited | Front-End Developer | Sep 2024 – Jun 2025

- Led the development of dynamic dashboards and admin panels using React.js, enhancing user efficiency.
- Boosted app performance by 60% through code-splitting, lazy loading, and bundling optimizations (reduced load time from 5s to 2s).
- Integrated Google Maps API, and Chart.js to visualize business data and improve UX for end users.
- Implemented real-time chat and notification features using Socket.IO for admin-user communication.
- Created reusable UI components in a scalable architecture using Matreial Ui and modular design principles.
- Worked directly with QA and backend teams in Agile sprints to ensure timely and bug-free releases.

Beta Soft Technology | React JS Developer | Aug 2023 – Sep 2024

- Designed and developed responsive user interfaces for diverse clients across industries including healthcare, logistics, and retail.
- Collaborated in Agile teams to deliver production-ready features under tight deadlines with high code quality.
- Wrote clean, maintainable React code with Redux state management and API integrations via Axios/Fetch.
- Optimized reusable components and implemented a mobile-first design approach to ensure cross-device compatibility.
- Contributed to UI/UX enhancements based on real-time user feedback and usability testing sessions.

PROJECTS

RK Website & Admin Panel

- Developed a full-featured admin dashboard to manage all live content for the RK brand website in real-time.
- Integrated dynamic content management so every page on the main site is powered by data from the admin panel.
- Built secure login, role-based access, and content editing workflows using modern UI frameworks and RESTful APIs.
- Implemented modular, reusable components in React.js for both user-facing and admin interfaces.
- Enabled instant page updates from admin to public view, reducing dependency on developers for basic content changes.

Jambeera

https://jambeera.com

- Developed and styled a responsive web application for a beverage and hospitality-focused platform.
- Implemented modern UI elements to improve user navigation and engagement.
- Worked on performance optimization and mobile-first design using React and Tailwind CSS.

Odissi Spice

https://odissi-spice.netlify.app

- Built a fully responsive restaurant website showcasing Odia and North Indian cuisine.
- Enabled users to explore the menu, view galleries, and place online orders.
- Used WordPress API and WooCommerce for product integration.

EDUCATION

Dr. Shakuntala Misra National Rehabilitation University, Lucknow, UP
B.Tech in Electrical Engineering | Jul 2017 – Aug 2021
CGPA: 7.79/10.0
