

Rukmini B

Software Engineer | Frontend Developer

+91 6300394866 . bongurukmini1999@gmail.com . <http://linkedin.com/in/rukmini-bonqu> . Hyderabad, Telangana

Profile Summary

Frontend Developer with 3 years of experience building responsive, high-performance web applications using **React, JavaScript (ES6+), TypeScript, HTML5, and CSS3**. Proficient in **state management** with **Redux** and **Context API**, and skilled in integrating **RESTful APIs**. Experienced with **UI libraries** like **Bootstrap** and **Material-UI**, and familiar with **mobile development** using **React Native** and **Android Studio**. Hands-on experience with **Node.js** for backend integration, with working knowledge of **MySQL** and **MongoDB** for database operations. Comfortable working in **Agile environments** using tools like **Open Project**, collaborating effectively with cross-functional teams. Strong command of **Git**, modern **UI/UX best practices**, and **WCAG accessibility** standards. Adept at writing clean, maintainable code, optimizing performance, and aligning with design specifications using tools like **Figma, Zeplin, and Adobe XD**.

Skills

Frontend Technologies: React, React Native, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, SCSS, Bootstrap, Material-UI, Ant Design (AntD), jQuery, Vite.js, Responsive Design, Media Queries

State Management: Context API, hookstate, Redux, Redux Toolkit (conceptual knowledge)

Backend & Databases: Node.js, RESTful APIs, MySQL (conceptual knowledge), MongoDB (conceptual knowledge)

Mobile Development: React Native (Android Studio)

Version Control & Project Tools: Git, SourceTree, Git Extensions, OpenProject, Agile Methodologies

UI/UX & Design Tools: Figma, Adobe XD, Zeplin, WCAG Accessibility Standards

Operating Systems: Windows

Development Practices: Clean and Maintainable Code, Performance Optimization, Cross-functional Collaboration

Soft Skills: Analytical Thinking, Problem Solving, Attention to Detail, Effective Communication

Experience

BITKEMY TECHNOLOGIES PVT LTD

Software Engineer

Project: SaaS-Based Low-Code/No-Code ERP Platform for SMEs

Hyderabad
2024 - Present

- Developed a scalable SaaS-based **Low-Code/No-Code ERP platform** tailored to small and medium-sized businesses to streamline and digitize core business operations.
- Built dynamic and interactive UI components including **Kanban, Card, Calendar, Screen Split**, and **List** views using **Ag-Grid**, improving data usability and user interaction.
- Implemented **admin-level customizations** such as company logo uploads, mathematical operations for data filtering, and country-specific **currency formatting**.
- Designed and developed a **responsive UI** with **Material-UI**, incorporating dynamic theming and styling to maintain visual consistency across all device sizes.
- Managed **real-time WebSocket responses**, using **Snack bar toast notifications** to enhance user awareness and system responsiveness.
- Created live **dashboard notification features** to reflect updates from other users, supporting **real-time collaboration** and system transparency.
- Utilized a robust front-end tech stack: **React.js, JavaScript (ES6+), TypeScript, Redux, Node.js, HTML5, CSS3 & SCSS**.
- Collaborated cross-functionally with **backend developers** and **UI/UX designers** to ensure component integration, seamless user flows, and optimal application performance.

Project: Bitkemy Website Development

- Designed and developed a fully responsive and dynamic company website from scratch, ensuring alignment with modern UI/UX principles based on Figma and Zeplin design specifications.
- Structured and organized content using semantic HTML5 and styled components with CSS3 and Bootstrap, ensuring scalability and full responsiveness across all device sizes.
- Implemented interactive UI elements and smooth animations using JavaScript and jQuery to enhance user engagement and experience.
- Integrated **Font Awesome** for iconography, enhancing visual consistency and user interface clarity across the platform.
- Performed thorough cross-browser testing and applied performance optimization techniques to improve page load speed and ensure a seamless browsing experience.
- **Technologies Used:** HTML5, CSS3, Bootstrap, JavaScript, jQuery, Font Awesome, Figma, Zeplin

Education

MCA (Master of Computer Application)

Rajah RSRK Ranga Rao College

Bobbili, Andhra University
June 2019 to Oct 2021 | Scored: 80%

BSC (MSCS)

Rajah RSRK Ranga Rao College

Bobbili, Andhra University
Passing year: 2019 | Scored: 83%

Certificates

Java Full Stack

Sathya Technologies

Hyderabad, Telangana
Feb-2022 To July-2022

The complete 2024 web Development Bootcamp in Udemy
