SUMMARY

I am a web developer with over 3 years of experience dedicated to creating user-friendly web applications. My expertise includes using modern technologies like JavaScript, HTML, CSS, AJAX, and Bootstrap in creating responsive designs. I consistently strive to improve user experiences while adapting to new technologies and approaches in the field. My significant work in royalty distribution systems exemplifies my dedication and impact in the industry

EXPERIENCE

Web Developer

Netreach Software Pvt Ltd 📅 10/2022 - 04/2025 📍 Mumbai

A software development company specializing in web applications
Project Name : MISASIA (MISASIA Music Information System for Asia)
Upgraded version of MISASIA, based on new features and changed user requirements being developed. It will be used for the calculation of royalty payments and the distribution to various composers, authors, or publishers of songs. There are 5 Societies: COMPASS, MCT, VCPMC, IPRS, FILSCAP. Currently being used by COMPASS and MCT societies in Southeast Asia, this system is currently in the final development phase.

- Designed and developed web applications using HTML, CSS, Media Queries, JavaScript, and jQuery
- Tested cross-browser compatibility for websites and applications in Chrome, Firefox, Safari, Opera, and Internet Explorer
- Designed websites, portals, and large-scale web applications for multiple clients
- Utilized bug tracking tools such as JIRA to track defects and monitor resolution of issues
- Developed and managed a system for music royalty distribution in collaboration with SOCIETY
- Enabled efficient registration and tracking of royalties when songs are played in public venues and on digital platforms
- Ensured accurate royalty payments to publishers and songwriters, enhancing transparency in royalty distribution

Web Developer

Webkrida 📅 04/2022 - 10/2022 📍 Mumbai

A web development company focusing on delivering modern web solutions

- Worked on various web technologies like HTML/HTML5, CSS, Bootstrap 4/5, media queries, JavaScript, ES6, and jQuery
- Collaborated with designers to implement UI and UX designs accurately
- Utilized AJAX and JSON to enhance website interactivity
- Implemented front-end development to create visually appealing web pages
- Having sound knowledge of Node.js features like views, routing, and Express.js modules

EDUCATION

Bachelor Of Science in Information Technology

University of Mumbai 📅 07/2018 - 07/2021 📍 Mumbai
